**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Competition is American. Monopolies are not. We need to continue to have the ability for access to more ISPs, and not fewer. With the fiber broadband that an AT&T competitor is able to provide me (AT&T cannot), I can actually work from home the few days a week I must.

We need the ability for smaller, scrappier companies to be able to provide faster internet. We don't need large dinosaurs to override the innovation coming from the entrepreneurs that make this country great. Local providers are building new fiber networks to bring faster speeds. Competition builds the future! Don't end that. Please don't let the big telephone companies get the massive deregulation they seek. If you do, we will see innovation plummet, and the workforce impaired. Let's not be on the wrong side of history.

Thanks for thinking this through, smartly.
